SUMMARY

Mechatronic engineering student skilled in hardware–software integration seeking a software developer role. Proficient in programming languages like C++, Python, and Java with a solid understanding of robotics and automation systems. Eager to leverage technical expertise in mechatronics to contribute innovative solutions and optimize software development processes

PROJECTS

08/2022–12/2022

AUTOMATED PUBLIC LIGHTING
IOT Based street light

- Worked as a Team Leader and Software Sector.
- Selected top 7 project in SIH PS-1300 in SIH2022.
- Best project in Department Level Ideathon.

EDUCATION

2021 – 2025

KONGU ENGINEERING COLLEGE
Bachelor of Engineering

GPA 8.0

2019 – 2021

INFANT JESUS. MAT.HR.SEC.SCHOOL
HSC

88.8%

2006 – 2019

ST.JOSEPH.MAT.HR.SEC.SCHOOL
SSLC

86.4%

CERTIFICATES

2021

DEEP LEARNING USING MATLAB
Pan tech Platform

SKILLS

- DSA
- React js
- Machine Learning

AREA OF INTREST

- Automation
- Internet of Things
- Machine Learning

HOBBIES

- Good communication skill
- Able to work in a team
- Great problem solving skill
